DETAILED ACTION

Applicant's amendment filed 9/22/2006 has been entered. All pending claims have been carefully reconsidered in view of the amendment.

Allowable Subject Matter

Claims 1-3, 6-16 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 15 and 16 are now amended to include the allowable subject matter indicated in the previous office action.

Claim 1 now contains allowable subject matter. As discussed in the previous office action, a light detecting module having a reflecting mirror with quadric reflecting surface is known in the art. However, none of the prior art fairly teaches or suggests such module having a reflecting mirror wherein the optical axis of the reflecting surface intersects the center of the surface, and wherein only the signal light that is incident on the surface within one-half radius of the center of the quadric reflecting surface is reflected at a right angle as claimed in the present application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
